## **CW STEPS OUT IN AFRICA WITH CW SAFARIS**

*First foray into the African bush for the world leader in active travel, with offerings including fly-in safaris, walking safaris and short-trip spotlights*

**February 2012 (Waterbury, VT)** – CW is stepping into Africa with the launch of [CW Safaris](#), a compelling collection of safari adventures fashioned in the classic tradition for contemporary travelers of all ages and interests. With the launch, the world’s premier walking and biking tour provider entices travelers with exclusive, hand-crafted safari experiences that go well off the beaten tourist path to reveal the continent’s must-see locales. Unlike other group tours in Africa, the vision of “independent journeys” with CW Safaris allows travelers to choose their dates, travel companions, and choice of daily activities.

Like all CW trips, CW Safaris are remarkable; four distinct Safari Styles assure there is something for everyone. *Classic Safaris* explore, actively and experientially, the great safari destinations; *Family Safaris* are geared for adults and children alike with activities and accommodations chosen with family in mind – a rarity in the African safari genre; *Custom Safaris* allow the crafting of a customizable adventure with travel companions of choice; *Fly-in Safaris* reveal the majesty of Africa’s landscape and animals from above. CW Safaris provide recommended “best season to travel” tips, but departures are guaranteed and offered year-round.

There is plenty of adventure to go around in Africa, of course. CW jumps into the thick of it with a range of activities including, bush walks, game drives, bird watching, animal tracking, mountain biking, swimming, gorilla tracking, river cruises, wine tasting and stargazing. Travelers tool through beautiful national parks in customized 4X4 safari vehicles; soar above migrating herds and remarkable scenery in chartered planes; visit local villages; explore urban cityscapes; or even stride from bush camp to bush camp, as on the *Zambia: South Luangwa* “walking safari” – CW Safaris is the first to offer a bush camp to bush camp walk from one home base to another by foot in this region.

Travelers enjoy superb accommodation in premium tented camps, boutique lodges and luxury resorts in breathtaking surroundings. Safaris are led by exceptional, experienced guides. Meanwhile, CW Safaris assure intimacy with the locale, as well as authentic cultural experiences.
