Activity Level

This tour is one of our Flex-Guided Walking Adventures and features a combination of cobbled streets, uneven footpaths, and rocky, irregular terrain over hills and through valleys. An elective 8 mile (13 km) Inca Trail hike includes a 2,000-foot (610 meter) elevation gain. Altitudes between 6,500 and 13,500 feet may require a slower pace. Our minibus support is available at specified meeting points for those who would like assistance except on the Inca Trail, where there is no road access and you will be required to walk the entire 8 miles (13 km). Both morning and afternoon walking options are available most days. Appropriate for enthusiastic beginners and ideal for experienced walkers. Several of the walks require a transfer from our hotel to the start of the walk. Our Trip Leaders often use this time in the van for morning

route reviews, so you can enjoy a more leisurely morning at breakfast. As one of our Flex-Guided tours, some days offer options for self-exploration, cultural visits, or free time to relax on your own.

All your effort is rewarded when you arrive at Intipunku, the Sun Gate (8,954 feet) and the most spectacular approach to Machu Picchu from above.
